Together to optimize your performance

Manage payments and the secure transmission of data

- Manage the transmission of essential transaction data directly from your POS terminal to your financial institution
- Process payments by credit , debit, chip and PIN cards through Moneris and Desjardins
- Allow payments by gift cards
- Accept main loyalty programs offered by our partners

Offer ultra-fast service at your points of sale

- Serve more customers in less time
- Reduce wait times at your POS terminals
- Get a transaction confirmation in a matter of seconds

Ensure a secure experience for you and your customers

- Avoid manual entry errors (incorrect payment method upon invoicing, wrong amount entered into the bank terminal, duplicate entries, etc.)
- Reduce card and data handling; let your customers key in their PIN
- View previous transactions with the automatic data integration in your system

Save time and money

- Balance cash drawers and close batches in a few seconds
- Reduce paper handling: all data is automatically saved in the software
- Reduce costs associated with the implementation of new cards thanks to a constantly evolving and adaptable solution

And much more!

- Reduce transaction time
- Evolve along with new technologies
- Be compliant with payment card industry standards (PCI-DSS)
- Ensure secure data transmission
