* The On Hand, On Order and On Shelf apps are compatible with the HP ElitePad 1000 tablet.

Mobile Inventory Counting

On Hand is an inventory management app that maintains your inventory count through a revolutionary approach. It allows for easier and more cost-effective overall inventory accuracy, providing you with more immediate and valuable information.

Features and Benefits

- Accurate inventory allows for automated purchasing, saving time and money
- Simplified annual, spot and cycle count procedures
- Precise financial inventory valuation eliminates surprise adjustments at year-end
- Faster cycle counts
- Automatically maintained slot code information
- Assistance in managing a perpetual inventory

Mobile Purchase Order Creation

The **On Order** inventory ordering app enables you to easily create purchase orders directly in the aisles. Keep your shelves stocked and your customers happy!

Features and Benefits

- Quick uploading of products and detail onto the tablet
- Filtering options to customize what products are loaded into the tablet
- Intelligent purchasing decisions from anywhere in your store
- Storing of barcodes for additional scanning capabilities
- Purchase order creation based on primary vendor information

Mobile Label Printing

On Shelf is a label printing app that gives you the freedom to update and print shelf labels on the spot. It provides a quick and easy way to check and update pricing anywhere in your store so you can keep displayed prices accurate for your customers.

Features and Benefits

- Scan and print technology
- Fast label printing
- Easy way to maintain current pricing
- Fresh-looking and up-to-date labels
- Newly-created displays on the spot
- Quick and effective remerchandising

Get the most from your ACCEO Profitmaster management solution with On Hand, On Order and On Shelf.

Our On apps can be installed individually or as a bundle.
Pick only the ones you need, or benefit from the power
of their combined functionalities!
