Together to optimize your performance

Radio Frequency

To be even more efficient
in your store!

The RF module is an essential tool for hardware stores, building material centres, lumber yards and retailers. Get the most from your management solution with the many benefits and features included in the Radio Frequency module and equipment.

“ Before working with OGC, we didn't know about wireless management tools. We never realized they would change the way we work! The wireless handheld terminal is incredible. ”

- Pépinière Locas

Products easily tracked at all times

- Verify and control multiple locations
- Eliminate the use of paper documents
- Get a wealth of information on products instantly

All the necessary information always within reach

- Ensure displayed prices are always accurate
- Inform customers of product availability or upcoming shipments
- Answer customers' questions from anywhere in the store

Fast and accurate cyclical counts

- Speed up your targeted, cyclical and complete stocktaking processes to expedite updating your perpetual inventory
- Do physical counts directly from the shelves using the integrated barcode scanner

Customers served from anywhere in the store

- Reduce lineups at the cash by preparing customers' orders in advance
- Create purchase orders directly from the aisles
- Verify items already on order

Efficient management of purchase orders

- Order products instantly by scanning their shelf labels
- Verify received orders at record speed
- Scan products directly from pallets
- Validate barcodes automatically

And much more!

- Enter products' location numbers and information quickly
- Create and replace worn labels directly from the aisles
- Access the sales statistics for the last twelve months

// *Instead of digging through binders during stocktaking, we simply scan the product and the handheld terminal, which is directly linked with OGC, tells us how many are on hand. By adding the counted quantity, we then have up-to-the-second accurate information. It's pretty incredible!* //
